TRANSMITTAL OF ANNUAL LANDFILL GROUNDWATER MONITORING REPORT—MW-042-98

Enclosed are six copies of the recently revised Groundwater Monitoring Reports for the Present Sanitary Landfill. Due to comments from your organization, the report has been revised with comments resolved and/or included into this new final report. This report should be submitted as the final report to Department of Energy, Rocky Flats Field Office (DOE/RFFO), and the Colorado Department of Public Health and Environment, (CDPHE) Solid Waste Division. Although official transmittal of this report is late, the data has been previously reported to the Groundwater and Solid Waste Divisions within CDPHE during annual assessments or other reporting mechanisms. The unchanged analytical information supplied in this report was provided to CDPHE last fall during the annual landfill assessment. CDPHE's Solid Waste Division was satisfied with our program for monitoring groundwater and its application of the regulations which can be applied to the landfill site. The Groundwater and Landfill Operations Groups will work to complete the next final report earlier, by July 1998. Please ensure that four of the enclosed six copies are equally transmitted to DOE/RFFO, and CDPHE at the addresses below:

DOE, RFFO
Regina Sarter
Building 460

CDPHE -- Hazardous Materials and Waste Management Division
Attn: Glenn Mallory
4300 Cherry Creek Drive South
Denver, CO 80222-1530

The remaining two (2) reports are for your records.

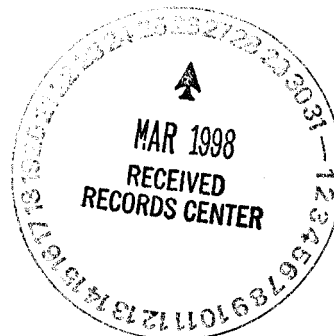

If you have any questions contact Waste Disposal Projects, David L. Kidd, at extension 5835 or pager 1071.
